Asja, Brian, and Kevin:

Thanks for the good discussion this morning and working towards scheduling recycling plant sampling visits.

- 1) We are trying to arrange a sampling visit for this Thursday (9/22) at the [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] I contacted ATSDR this morning to see if we can get that scheduled for 1:00 pm on Thursday. I will try to get the sampling kit shipped to you in Cincinnati today for arrival tomorrow. I will get the POC and an address for the location from ATSDR and send that to you. [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

We will need to identify a UPS Store for shipping. Note that shipping deadlines for overnight air usually occur earlier in the day than store closing hours.

- 2) Asja and Brian will propose a sampling date, likely next week, for [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] The address is below. We will then confirm the date with the plant and get a POC for the plant. We will plan on shipping the sampling kit to the plant so it is ready for your use.

- 3) I am attaching the field safety protocol that was approved by the RTP SHEMA office for collecting samples at synthetic turf fields. You will check with Steve on whether this is sufficient, or whether something else is needed. I am also attaching the sample collection SOP I sent previously.

- 4) Asja and Brian will propose sample collection dates for [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] - addresses below. We have verbal agreement but have not received written agreement yet. ATSDR said they are likely to return the written agreement within the next couple of days. (FYI – ATSDR will collect samples from the

- 5) A reminder that our signed agreement with the plants says that we will not publicly release their names/identities. Plant names and locations should not be mentioned to anyone not directly working on this at EPA, and to no one outside of EPA.
- 6) FYI: Here is the EPA web site with links to the Federal Research Action Plan and the Research Protocol.

Hi everyone:

I am trying to schedule a call to discuss TCRS recycling plant sampling. I know Friday may not be the best day to do this. Let me know if it needs to be changed.

Thanks,
Kent Thomas
